“THIS IS THE RIGHT TIME TO BUY YOUR DREAM HOME..”

And the right event to do just that is **CREDAI MCHI Thane EXPO-2022**, a ‘must visit’ event.

CREDAI MCHI Thane is an association of developers, formed with the underlying objective to seek rational rules and regulations which are uniformly applied across the board. This results in speedy construction, cost reduction, fair pricing and a push for better quality standards with a high level of transparency at par with the developed world. The Thane of CREDAI MCHI, runs on the belief that believed that a great city is the sum total of great buildings, great infrastructure and great people. Through strategic partnerships with Thane Municipal Corporation, MMRDA and MIDC, the city is been developed to become a global city.

CREDAI MCHI Thane had organised its first exhibition in the year 1999, and as we leap into the 19th edition of this unique gathering that aims to highlight these startling facts about the city and reach out to people on a large scale. A lot of suitable housing options will be available this year at the expo. Many developers also feel that launching their projects during the expo would provide them with the much needed boost and in turn, help home-buyers make an informed choice and increase the chances of the sale of their apartments with the help of house financing.

JITENDRA MEHTA

Hon. President
CREDAI MCHI Thane.

After the battle with lockdowns and various other challenges that the Covid-19 pandemic brought, Thane as a real estate market has been safe and secure. With possession of flats being handed over on schedule even during the pandemic, it was obvious that Thane's real estate market was not affected by the pandemic.

Even as home buyers kept requesting over the past few months, asking for a buying environment which would not just be safe and sound but also provide the convenience of making the choice under one roof – we knew it was time to bring back Thane's leading property and home finance expo.

In the 'new normal' post the pandemic, home buyers missed the advantage that the property expo provides. It is about selecting a home from a wide choice, across different segments and price points, created by a wide variety of leading real estate brands - all under one roof. Giving due weightage to the requests from home seekers, **CREDAI MCHI THANE** has organized its annual property and home finance expo – **PROPERTY 2022 THANE**- from 11th March to 14th March 2022, at **Raymond Ground, Pokharan Road.No.1, Thane (W) 400601.**

For the smart home buyer, this is the last chance to strike a lucrative deal and buy a home at existing price points. Cost of construction material has gone up; property prices, especially for new launches, seem all set to rise. Add to this the state government's proposal to hike the stamp duty by 1 per cent, which will add to the burden of home buyers in the new financial year. The smart thing to do would be to evaluate and finalize one's dream home during the expo, and ensure that one buys with the added benefit of the expo special pricing as also ensure the cost enhancement which is most likely as also the change in stamp duty are both avoided. that would be truly a smart deal!

CREDAI MCHI THANE, is one of the most respected association of Thane's Real Estate Sector. The property and home finance expo being organized after continuous feedback received from home seekers, who were looking forward to being able to check our various property and home finance options under one roof, is the hallmark of confidence that home buyers have in **PROPERTY 2022 THANE.**

My best wishes to all who attend the expo, and I hope that your dream home will become a reality in the expo.

MANISH KHANDELWAL

Hon. Secretary
CREDAI MCHI Thane.

It is time to experience the change, and ensure that the safety and security that one's own home provides becomes a reality for home seekers. This process of making the change to a new home can be started by visiting **PROPERTY 2022 THANE**, the annual property and home finance expo organized by CREDAI MCHI Thane.

The new venue at Raymond Grounds, Pokhran Road No 1, Thane west is new when compared to the previous few editions of the expo. Along with the new location, the expo will also reflect upon the new types of homes required in the 'new normal', post the pandemic. The home seeker wants a home that fits in their requirements in the new world; and **PROPERTY-2022 THANE** has been planned to provide home seekers with just this.

A home in Thane is perfect for this, as it is a city with cultural richness and a safe and secure environment. Thane is the ideal place to make your 'home'. Best of amenities and facilities make Thane homes a win-win for the entire family: a Thane home has something for every member of the family.

And, in a scenario where the expo offers options which add up to being the ideal home; one that offers home seekers a safe haven during challenged time like not just the Covid-19 pandemic, but any such similar challenges which may come up in the future. Safe, secure homes with transparent transactions and a home that meets requirements of every family's budget: Thane real estate offers all of this, and more. And some of the best, curated deals on homes are on offer at **PROPERTY 2022 THANE**. The expo also offers home loan options which will make the decision to buy your dream home the right one. The expo has been planned keeping Covid-19 appropriate behaviour in mind, and CREDAI MCHI Thane looks forward to it being a safe and secure event for home seekers.

SANDEEP MAHESHWARI
Exhibition Committee Chairman
CREDAI MCHI Thane.

For home seekers looking at buying the right sort of home to meet the requirements of the 'new normal', **PROPERTY 2022 THANE** offers the best of both worlds – homes that meet updated requirements and a platform to select which is time-tested and trustworthy: the property and home finance expo.

If Thane, as the fastest growing urban conglomeration in the Mumbai Metropolitan Region (MMR) is attractive for home seekers; the expo is time-tested and among the best options to select one's dream home and make it a reality.

PROPERTY 2022 THANE offers not just a wide array of housing options across geographies in and around Thane as also across segments and budgets, it also offers home finance options. For a home seeker, the convenience and comfort of being able to select the home of their choice as also get a home loan in the same event makes a major difference to the process of buying a home. The biggest advantage that home seeker gets from such expos is the aspect of special pricing during the expo as also other sweeteners and freebies which make it a win-win for them – truly, a smart deal.

To get all these advantages in a Covid-19 appropriate environment is the safety enhancer which reflects on the home buying experience as well. In a world where RERA has brought in transparency and accountability in the process, an expo organized by a reputed body of real estate developers like CREDAI MCHI Thane reflects on a similar sense of safety and security. Just as the visitors' health and well-being will be taken care of from a pandemic perspective, the process of buying a home and getting the right sort of home finance options will be equally safe and secure.

Why has CREDAI MCHI Thane organized the property and home finance expo in March 2022? This decision was taken following continuous feedback received from home seekers, who were looking forward to being able to check out various property and home finance options under one roof. This year, the venue is new, as are the type of homes on offer. The organizing team is looking forward to providing home seekers with the perfect platform to make their dream homes come true.

AJAY ASHAR

Immediate Past President
CREDAI MCHI Thane.

Real estate as an industry, has faced many challenges, but the one aspect where we have not had any doubts has been the home buyer confidence. As the authorities keep coming up with various time-limit restricted schemes - like the stamp duty reduction towards the end of 2020 or the special scheme that reduces for women home buyers stamp duty by a per cent, to give an example – the home seekers' sentiment makes the shift from 'fence sitter' to 'actual buyer'. This, even during the second wave or third wave of the pandemic.

Home loan interest rates are at historic lows, the home seeker has never had it so good. Will this low home loan interest rate see the home seeker, opt to go ahead and buy your home at the **PROPERTY 2022 THANE** expo? I sincerely hope so.

Post the vaccination program making it possible to work towards near-normalcy a possibility, we are seeing home buying across not just Thane, but also the Mumbai Metropolitan Region (MMR) shift into high gear. During the pandemic, neither did construction of homes stop, nor did home buying. Moving ahead into 2022, the expectation is that home buying will witness a surge, as home seekers realize that the safest place to be during any challenged time like the pandemic, is one's own home. To make that a reality, the home seeker needs a platform where in comfort and safety, they can select their dream homes.

Suggestions by the housing industry have been accepted by the state government, which helped the sector return on track despite the Covid-19 pandemic. After a sluggish five years, the real estate industry has been gradually reviving since the past one year. However, However, the waiver on stamp duty which the government had withdrawn should be reintroduced in the interest of the industry and homebuyers.

PROPERTY-2022 THANE, a team effort by CREDAI MCHI THANE, will see more than 30 real estate developers and leading home finance providers offering some of the best options that a home seeker would want. The advantage of having a wide array of options under one roof, with the option of directly interacting with representatives of real estate brands and home finance providers will see many a home seeking family select their dream home and make it a reality.

JAY VORA
Youth Wing President
CREDAI MCHI Thane.

GEN-NEXT is the fast growing segment of new age home buyers; we have seen Millennials who traditionally were staying on rent now begin the process of selecting their own home. The sheer advantage that one's own home offers, as compared to living in rent, is something that the lockdowns during the pandemic brought home. For most of this segment of home buyers, **PROPERTY 2022 THANE** will be their first experience of selecting a home from a wide array of options under one roof.

For a generation used to digital platforms, it will be a pleasant alternative to experience the human touch during the process of evaluating, selecting and finally, buying one's own home. The customization of information during the expo which is powered by human response to specific queries in form of answers by representatives of the real estate developers will be a positive experience for this segment of home buyers.

Obviously, this is a segment of which most will be looking out for homes that are studio apartments of compact 1 BHK flats. Budget will be a major factor in the selection process of the ideal home being bought by this segment; but we expect the home loan options at the expo to provide the necessary cushion, enabling them to make their dream homes a reality. The expectation is that this segment will opt for homes that offer minimalist living, but with common amenities that more than make up for the same – so, clubhouses and such facilities and common amenities are expected to be on top of their list.

Thane offers homes that are right for home seekers seeking a safe haven during not just the Covid-19 pandemic, but any such similar challenges which may come up in the future. Safe, secure homes with transparent transactions and a home that meets requirements of every family's budget: Thane real estate offers all of this, and more.

GAURAV SHARMA

Treasurer
CREDAI MCHI Thane.

If one considers from a slightly different perspective, buying a home is all about numbers – the size of the flat; the cost; the difference between own funds and total cost of the flat are important numbers. Helping get the right ‘sum total’ of the equation is Home Finance, which helps home buyers meet this challenge.

At **PROPERTY 2022 THANE**, the home seeker will get options of selecting a home across a wide range of price points (again, numbers) with matching sizes of the home (ditto – numbers). Making the right choice will be about evaluating various options of offer at the expo, and working out what best suits the requirements.

Once you have zeroed in on the perfect home, the numbers part comes in again. From total cost and own contribution to home finance part, numbers are part of the process. At what rate of interest you get the same is among the important numbers; as is the special offer/ cash back/ other sweeteners which will make taking the loan from the expo a smart decision.

For home seekers, these numbers all add up to a smart equation – a smart buy for the smart home seeker. And, ensure you do it at the smart option: **PROPERTY 2022 THANE**. Organized by CREDAI MCHI Thane, the leading association of real estate developers. Members of CREDAI MCHI Thane provide safe and secure homes for those attending the expo. Home finance options in the expo will enhance the options which will make the numbers game while making dream homes into a reality easier. Plus, the comfort of a wide array of options under one roof.

Thane is evolving into a global city; and making a home purchase in this time is the smart thing to do. The expo offers discounts and special prices – the right thing to do, at the right time!
